The case in which two natives were charged with larceny of cheques amounting to \$80 from the Swatow Drawn Threadwork Co. came before Mr J. R. Wood to-day. The man who stole the cheques was given six months imprisonment while the other, who cashed them, was discharged, his Worship describing-him as more of a fool than a thick.

Seven natives were charged at the Magistracy to-day with stealing from lighters coal belonging to the Mitaui Bussan Kaisha. Mr E. Davidson prosecuted. The first four defendants were represented by Mr J. H. Gardiner, and Mr Otto Kong Sing defended the others. The first defendant was give three months' imprisonment, the second, third and fourth one month, all the others were discharged.

"THE YEAR OF THE DOG."

Nineteen hundred and ten, according to the Chinese calendar, is the year of the Dog. The Japan Times says :- "The year of the Cock has come and gone. The Cock did not proved a triumphant Cock, but it proved a timorous, vigilant, but silent Cock. It was a pity that he did not bring a hen with him to lay golden eggs, at least for Japan. It is of no use, however, to mourn for the departed spirit of the year. The zodiac turns in spite of human will, TYAVING been appointed AGENTS on and here we are face to face with the faith- Hongkong for the WESTERN ful Dog. To Dog - what depth, and may we say, length of feeling and sentiments Chinese risks at current rates. and memories are not associated with that descendant of the wolf! The Okinamaru of the Imperial honours is but an outcast dog compared with the honours paid to some 100 varieties of dogdom existing in this enlightened, humane century of ours. Energy, forbearance, and above all, loyalty, "these are the qualities of man's old friend, the Dog, and they are the qualities that will keep any min or nation above water. May our readers live another year, and many more years, of dogged strenuosity.

Records of "a Glorious Past."

In outward appearance quite unpretoutious, the valuable little volume just issued under the title of "Notes on Pony and Herse Racing in Hongkong." from the pen of Sir Henry May, K.C.M.G., supplies the follower of "the sport of Kings" this Far Eastern outpost a veritable mine of most reliable and detailed information. Only the briefest glance through its pages is needed to indicate to what pains the Extraordinary General Meeting of the Company will be CLOSED from WEDNES. author must have been put in gathering Company held on the 30th day of Decem- DAY, 19th January to TUESDAY, 25th together the threads which are now so carefully woven together.

From the prelatory note it seems that the idea of producing such a valuable record as is now made available to the public originated at one of those delightful functions when, once in every year, the stowards of the Hongkong Jockey Club meet round the festive board. Conversation had turned on bye-gone days, when thoroughbred horses imported from England competed for the blue riband. of the Hongkong Turf in the Happy Valley. "Some one," the author observes, "remarked that it was a pity no readilyaccessible record existed of the achievements of a glorious past, whereupon I offered to write a short account of racing in Hongkong anterior to the time when races were confined to Chinese ponies. The notes, which have taken much longer in collecting than I anticipated, are the carnest of my promise. They are, I fear, lacking in detail and mengre in incident But the old records of the Jockey Club were not well kept, and the accounts of the races published at the time do not supply the information in which the records are deficient. I have thus found it very difficult to dutermine in many instances of what breed the ponies and horses were that ran, or who their owners were, I have endeavoured to ascertain some. thing of the pedigrees and form on the English turf of the English horses that ran in Hongkong, but Big without much success; and I must place these notes before the public in what. I fear is a somewhat hald and uninteresting form." In spite of these remarks of the author, however, the records are written up in a decidedly happy style.

It would occupy many columns of space were an attempt made to sift out all the compelled to stay in Europe on I count of were an attempt made to sut out all the family matters has left our Firm and the really interesting data furnished by this, in partnership subsisting hitherto has been many souses, unique volume, but it will be dissolved by mutual Agreement on and informative to many to learn that the annual races were during the administration follows :of Sir H. Pottinger (1841-1844) "still held in Mscao, for which purpose a general who is authorised to sign the Firm, in pilgrimage to Macao occupied the latter half of Divident charge of this Branch.

H. HOBITSEK & REIS.

An analysis of the month of February in 1842 and 1843. As much detail as is possible is given of thanking the meetings, it being assumed that the Cash. first held in Hongkong was in 1845, since when there have been races in the Colony every year. Still tracing one's way though mass of detailed information conthined in the book, it is gathered that the first race exclusively reserved for China ponies run at a Hongkong meeting was in 1856. It, was a half mile run. Mr Goddard's Nina (Mr Lowther, R.N.,) won. "There is," says the author, "no record of the weights carried but there is the significant note 'won easyall bolted' against this historic event." This meeting seems to have been a most successful one, and the opinion is expressed contributed to the success. In the account of the 1858 meeting a humorous little touch culled from the local Press is quoted. Deal-Consular Fees for the quarter entry I ing with the race for the Native Cup it is Fecorded that there were some spills, "when several Celestials were suddenly transformed into Terrestrials, to their own amazement and the intense amusement of

the lookers-on." It was in 1859 that the Challenge Cup appeared as an item on the programme for 1520 the first time, while we further gather that three years later was "the first meeting at which ruces for the now historic trophies, the Garrison Cup and the German Cup, are recorded. It was also remarkable our employ and has no authority to make of many of the Cups." The Lusitano Cup was first offered in 1867. extract from the Chine Muil of 1863" is quoted to show that in those days the ladies who presented the Ladies Purse to successful Jockeys made longer speeches than are now the vogue. There are numerous other excerpts from the China Mail, but none perhaps more philosophical than the corres. pondent, who, in some reflections on the 1865 races, wrote: -" In my opinion it is as well for a young man to get amartly bitten when he goes in for betting as much as his year's salary, as has been known in Hongkong in old times; and I pity the youth who wins a pot of money, because bho day of grief is only postponed." At the 1869 meeting the historical race

for the Wongneichong Stakes was for the first time confined in the programms to China ponies, while two years later for the first and only time in the history of the Hongkong turf they failed to produce a race, neither of the two ponies entered starting. It is interesting to note that this race and the Valley States are the on y two mentioned in the annels of racing in Hongkong an far as back as 1847, and the two races are still run year after year. The first mention of the Ladies Purso sppoared the following year (1848), while the next on the list is the Parsee Cup, rou for the first time in 18 7. Prior to this other races mentioned were the Plettir otentiary's Cup, the Canton Cups and the Fakel Cup. It was in 1873 that the Hong kong Derby was fir irun, and in 1887 all taces were confined to China poples. In GARMICHAEL, HORGKORO 1875 the time honoured Pakel Cap dis Appeared from the programme, its place being taken by the Reschong Cup.

A very considerable portage of the book is devoted to a most interesting series of

stable in the records of the Hougkong turf was achieved at the meeting in 1884 when races with 10 different penies out of a string

which will be as hard to beat as the one quoted above. Since 1865, which was the first Hongkong mee meeting he attended. he has not missed a single meeting. Thus the race meeting of 1909 was the 44th

consecutive one that he has witnessed. May he live to enjoy many more." There is an appreciation expressed of the sportsmanlike encouragement of racing in Hongkong, year by year, by Mesers Jardine, Matheson and Co., and it is pointed out that it is quite an erromeous impression that the expenses connected with the racing have been borne by the partners of the firm in the Far East out of a common fund to which the firm contributed. "Individual partners have at all times borne the expense out of their own pockets as purely private and personal expenditure."
In 1874 a representative of the firm for the first time rode under the name of John Peel, and since 1885 this has been the racing name of those representatives of the firm who have patronised our local turf. Mr W. J. Gresson is quoted as one of the only two heads of this firm who since Sir R. Jardine's time, have donned silk and ridden their ponies in our races. He is spoken of as baving "a very successful record as a rider on the Hongkong course. and at Shanghai and Northern Ports, and who in 1965 won the Derby on his pony Cotswold, and six other races on his own

A proud and justifiable boast is made of the fact that only once in the history of Hongkong racing has a charge of dishonest riding been made against a rider, and this is attributed to the circumstance that at no time have professional jockeys teen permitted to ride and to the thoroughly sporting spirit in which racing has been conducted. There is a host of incidents. contributed by the author on the idiosyncrasics and good qualities of a large number of riders he has known. He states that "the strongest rider that has ever been seen in Hongkong or China is undoubtedly Mr T. F. Hough. A fine horseman, possessed of great coolness and judgment, he always did his mount justice and gaveowners actisfaction. But he was possessed in addition of extraordinary strength, and it is no exageration to say that he won many races on ponies that no other man riding at the time would have won on." Some interesting stories of " Tommy's" prowess are told. It is impossible to refer to what the author has to say about many another jockey, and wewill conclude with his closing lines. Speaking of the brothers Burkhill he says :- " I saw 'Chuck' Burkhill win nine races last Hongkong meeting. Of these I calculate that he stole two, if not three. I have never seen a man sit quieter on his mount or ride with nicer judgment. When I add that he has great knowledge of pace, is very strong in the saddle, and can get to the bottom of the most unwilling mount 1253 | the reader will understand that he is indeed "runs 'un to follow and a had 'un to

BELILIOS PUBLIC SCHOOL Price Distribution.

The annual prime distribution in con action with Belillos Public School took place this morning. His Excellency Sir Frederick Lugard presided and there was a large attendance.

His Excellency was accompanied by Capt P. Mitchell Taylor, A.D.C., while Mr E. A. Irving, Director of Education, was also present. Prior to the distribution of awards by His Excellency, a splendid programme, consisting of songs and and aketches in English and Chinese, was carried out by the scholars. The premises were beautifully

adorned for the occasion.

The total amount bid reached \$9,005, which only in the staff-Miss Lesbirel resigned (Applauso). stress on two points. In the first place I alluded to the dual position which this school occupies, that it is in fact I wo different schools, one a vernacular school in which the medium of instruction is Chinese and in which no English taught, and the other on English school which the medium of instruction is English. because many Chinese . parents had not and have not yet fully desired to give their daughters an education in English. I expressed the hope that year by Baker, Yei Ishii Lucy Thomas, needleyear we should see more transfer from the vernacular side to the Enghish side and that eventually there would be complete amalgamation into one Chinese school. Last year the Acting Inspector of Schools, Mr. Wolfs, was able to say that such progress in that direction had been made that fusion was already in sight." have myself had the opportunity of seeing in advance some remarks which the Direc-

tor of Education; Mr Irving, will make in his cannual report and in which he tells me that we may consider amales. of instruction in all Boyernment schools and vernacular education relegated to vernacular schools to which the Government gives large and substantial grants. The Director of Education also in the report to which I allude forecasts the future of this school. He tells me that he hopes to see the schools as one united school divided into upper! lower and preparatory schools and thet in the last ramed to this Colony in 1908. Selection of Staff.

A SHE WAS THE WAS TO SHE WAS THE WAS T Good progress is being made in the

preparations for Captain Scott's Antarotic

PLANS FOR THE SOUTH POLE

Expedition (officially designated "British Antarctic Expedition, 1910"), and Mr C. R. Meares, a member of the staff, is leaving for Siberia before the end of the year to obtain the necessary dogs and ponies. Captain Scott himself has only just been relieved of his appointment at the Admiralty in order that he may devote the whole of his time to the work of his expedition. Work has already commenced (says Reuter's Agency) on the ship Terra Nova, and the removal of oil tanks, with other minor work, is in progress. Any structural alterations will probably not be undertaken until early in the year, so that the workmen may have the advantage of lengthening days. The selection of all the members the scientific staff has not yet been definitely made, but it is gradually gettisg into shape. Dr Wilson, chief of the scientific staff, YES will also be zoologist and artist. His task will include the general organisation and distribution of work and the correlation of results. It is anticipated that three geologists will be taken with the expedition. One of them is Mr Mackintosh Bell, director of the Geological Survey of New Zealand, who has volunteered his services, which will be readily accepted if his Government grants him the necessary leave. The second geologist, it is hoped, will be secured in Australia through the good offices of Professor David, of Melbourne University. Besides the general knowledge these gentle men possess, the expedition will have knowledge of the lands adjacent to the field of work, and also of continuity with the work will be selected in England.

SCIENTIFIC INVISTIGATORS.

Mr R. Simpson, of the Indian Survey Dining Saloon. Department, will be the physicist of the is now on his way to England from Simla. final arrrangements with regard to him will night. only be made after consulation with Pro- shipment at Woosung. fessor Simpson. Two, and possibly three, biologists will be included in Captain Scott's personnel, and steps are being taken to secure gentlemen having special knowledge of marine biology. With Dr Wilson will be associated a second doctor, who will study botany and bacteriology, giving particular attention to the investigation of blood

The services of Mr C. R. Meares, the well known traveller, who lately completed a most interesting journey on the Chino-Tibetan border, have been secured for the expedition. As above stated, he is leaving England almost immediately for Eastern Siberia to obtain ponies and dogs, He will collect his animals at Vladivostok, whence they will be sent to Kobe and transhipped for Amstralia and New Zealand. Mr Mearcs will join the Terra Nova in New Zealand. Other members of the expedition will be selves to assist efficiently, with magnetic. and meteorological observations.

The landing parties will probably consist of 30 men in all, 25 of whom will be at the large station and five at the second station. The position of these stations will be alternatively east or west of the Barrier. according to circumstances. The numbers given are, of course, in addition to the staff of the ship, which will return to New Zealand after landing Captain Scott and his companions. An improved motor aledge, of a type tried successfully last year in Norway, is being constructed for the expedition, and will undergo further trials, for which purpose Captain Scott will proto Norway. There further trials will be made in February or March, when the anow will be in fit condition.
